EBA provides clarity to market participants for the implementation of the technical standards on strong customer authentication and common and secure communication under the PSD2 (EBA/CP/2018/09)

The European Banking Authority (EBA) published today two regulatory products, an Opinion and a Consultation Paper on draft Guidelines, to clarify a number of issues identified by market participants in relation to the regulatory technical standards (RTS) on strong customer authentication and common and secure communication (SCA and CSC), which will apply from 14 September 2019.
